REASONS FOR ALLOWANCE

1. claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

References Tuttle (6,574,454), Tuttle et al (6,781,508) and Tuttle et al (6,509,837) are cited because they are pertinent to the claim invention.

Regarding to claim 1, none of the prior art of record teaches or suggests In an electronic radiofrequency identification system including at least one radiofrequency reader and an antenna associated with said radiofrequency reader for generating an interrogation field through which transponders to be identified pass, a method for adjusting detection, transmission and/or reception parameters of said radiofrequency reader as a function of ambient electromagnetic noise, wherein the method includes at least: a step of measuring a level of ambient electromagnetic noise by means of the radiofrequency reader; a step of measuring, by means of the radiofrequency reader, a response of a reference transponder placed, at least temporarily, in the interrogation field of the antenna associated with the radiofrequency reader, said reference transponder having similar characteristics to the

characteristics of the transponders to be identified; and a step of adjusting said detection, transmission and/or reception parameters of the radiofrequency reader on the basis of the measured level of ambient electromagnetic noise and the measured response of the reference transponder. It would not have been obvious for a person skilled in the art to combine Tuttle (6,574,454), Tuttle et al (6,781,508) and Tuttle et al (6,509,837) with other prior art of record in order to arrive at the claimed invention.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanh D. Phu whose telephone number is (571)272-7857. The examiner can normally be reached on M-Th from 7:00-17:00.
